CATALOGUING?

LET ME TELL YOU WHY UTLAS HAS THE BEST ONLINE CATALOGUING SUPPORT SYSTEM.

1. OWNERSHIP

You own your records. Utlas' client libraries maintain their own files so they can edit records as they choose and add local holding codes and other information as required.

2. INTERNATIONAL DATABASE

Utlas has over 24 million MARC records and over 5 million REMARC records including records from the Library of Congress, British Library, National Library of Canada, Government Printing Office, National Library of Medicine, Utlas customers and many other sources.

3. FREEDOM OF CHOICE

The Utlas database retains the unique contributions of its client libraries. You choose the record to suit your need: from medical libraries with MESH headings to public libraries with modified LC headings.

4. AUTHORITY CONTROL

Utlas has in fact what so many others claim, real automated authority control. Consistent AACR2 headings and linked authority records for cross references. LC names, subjects and series are up to date.

5. CUSTOM-TAILORED PRODUCTS

Utlas can create catalogue cards, magnetic tapes and catalogues from your file. Products are available in laser-printed typeset or microform format.

We can demonstrate why you should be using Utlas' Catalogue Support System. CATSS is the leading edge. Call us today.
