rediscover

the library movement

Join the Canadian Library Association
in Calgary June 15-18, 2005 for its
60th Annual Conference and Trade Show

This national event has something to offer everyone! In addition to stimulating and enlightening keynote presentations, the conference offers an impressive array of sessions including those which have a technology focus! Judge for yourself:

New this year... the Technology Track!

The one day Technology Track is aimed at key specialists in the Canadian library community. This series of three programs will focus on new gadgets, technologies, and applications as well as new approaches and strategies for dealing with the flood of digital information and providing state-of-the art services to customers and patrons in your communities.

In addition, the conference will present sessions of interest to library technicians:

- SuperNet and Libraries
- Reorganizing technical services in your library
- Valuing public library knowledge
- Update on technology trends & developments as they impact the world of libraries
- Newest technologies, trends and future directions in wireless delivery that will expand and enhance customer service
- Geographic searching of integrated library systems
- Exploring new spaces in the public library: an approach to understanding the potential of new broadband technologies
- The changing and evolving role of the library in today's global knowledge-based society
- Digitizing assets: managing the process and access
